eLearning: UK GDPR

To help employees protect personal data, organisations need to provide GDPR training for their workers. This training will help people understand the importance of protecting sensitive information and will provide them with the knowledge and skills needed to keep personal data safe.

Who is the course for?
The GDPR eLearning course is designed for all levels of employee.

What is the course content?
Throughout this course, you will learn what GDPR and personal data are and how to process data safely and lawfully.
- Introduction to GDPR
- Individual rights and consent
- Data security and breach management practices
- International data transfers and GDPR compliance
- Working examples, practical exercises, quizzes and a test.

What are the learning objectives?
- Understand the principles, requirements and obligations of GDPR and how they apply to personal data
- Reduce the risk of financial penalties and reputational damage due to poor data privacy management
- Learn how to respect the rights of data subjects.

🕐 Approximately 2½ hours (self-paced)
